

# Eco-Psychological Prerequisites for Studying Psychological Activity

VIKTOR I. PANOV

Psychological Institute of the Russian Academy of Education, Moscow

52 «B», Leningradskoe, Moscow, 125212, Russia

E-mail: ecopvi@mail.ru

The author suggests using eco-psychological approach to psyche's development in order to overcome methodological barriers in the course of studying the emergence of psychological phenomena. The article lists the basic types of eco-psychological interactions, demonstrates the possibilities of their utilization for analysis of gnoseological and ontological paradigms of psychological investigation. The article describes seven stages of establishment of subjectness.

*Key words:* the process of emergence, psychic phenomena, methodological prerequisites, eco-psychological approach, eco-psychological interactions, establishment of subjectness.
