The article presents theoretical analysis of cognitive narratology core statements. The research covers correlation of methodic tools of narrative text studying at school and terms of modern narratology. Special attention is thrown to the point of view problem as basic representation of events pattern. The research shows the prospects for studying the narrative texts included into the literary reading textbooks from the position of cognitive analysis. Applied aspect of the problem under study can be put to practice in the course of classical literature texts analysis at school.

Keywords: cognitive narratology, cognitive analysis, narrative text, point of view, primary school.
